Bullette

www.bullette.net

The 90's in Newark spawned many great bands. Some have persevered and some have splintered and reformed in new incarnations. Some person with a memory better than mine should create the family tree diagram full of cross pollinations and new blood.

You can find links to the bands that still play on the Bullette site. There is also a new Bullette song for your pleasure called "I Can't Tell You Why I'm Smiling".
